HGC29D & HGC29A

HGC29D & HGC29A

Main Features

ZOOMLION concrete placing boom provides professional solutions for high buildings and large-scale constructions.

- Wide application: HGC29D/HGC29A used in free standing or inner climbing to meet various jobsites.
- Precise control and high reliability: HGC29D/HGC29A is based on ZOOMLION boom design and tower crane design technology, ensuring stable performance of machine. Control of all boom functions and the climbing device via remote control. Electronic-hydraulic proportional control technology enables precise control and convenient operations.
- Flexible and quick setup: with humanized design philosophy, we take every details into consideration to facilitate quick and convenient install and uninstall of the machine.
- Easy climbing operation: climbing is carried out simply and quickly by two lifting cylinders in a convenient method with the help of the hydraulics of the boom unit.
- HGC29A electro-hydraulic proportional directional valve is from German HAWE Company in hydraulic system, which can make several executive components work in the same time. It is with infinite speed variation, the running speed is no relation with the load. All can reduce the concussion of inverting, turning on and closing for inverting valves. So the boom can work more steadily.

Technical data

Vertical reach	29m	
Horizontal reach	29m	
Depth of reach	22.2m	
Free standing height	24m	
Arms	3	
Folding system	R	
Rotation range	365°	
Pipeline	0133x4	
End hose length	3m	
Control mode	Remote	
Column mode	0.75m x 0.75m	
Climbing mode	Two lifting cylinder	
Column	2 sections	3 sections
The heaviest single part	5700KG	4200kg
Power input	15kW	
Power supply	380V/50HZ
